How do I avoid late payment reminders?

1. Pay a standard amount each month

Make sure that your standard monthly payment and payment date are correct. In this way you'll avoid having to make a large additional payment to make up the difference when your annual settlement invoice arrives.
"Always pay on time"

2. Check your payment method

Make sure that your SEPA direct debit authorisation or standing payment order is still active.
"Make sure your account always has sufficient funds"

3. Use the correct account

Check that the bank account you specified for your payments is correct.
"Use correct bank details"

What happens if I don't pay my bill?

Please note that all these activities result in additional costs for you.

1. Late payment reminder or threat of termination

If your payment is not received by us on time, you will receive a **late payment reminder**, which is subject to an additional fee.

2. Termination or power cut-off

If you still do not pay, we will terminate your contract or block your meter and cut off your power. Blocking your meter will cost you **€118.30**.
